PRODUCT SPECIALIST | ASSOCIATE PRODUCT MANAGER

Product specialist with 4+ years of experience across enterprise software delivery, customer experience and market research. Translate user and business needs into prioritized requirements, workflows and UAT scenarios. Work on PMA360 for seven subsidiaries and enterprise initiatives supporting up to 1,200 users. Combine SQL analysis, structured documentation and cross-functional coordination to clarify decisions and follow delivery through testing, rollout and user enablement.

CORE SKILLS

Product: Requirements Analysis · Product Roadmapping & Prioritization · Backlog Management · User Stories · User Flows · UAT · Stakeholder Coordination

Research & Delivery: Customer Insights · Competitive & Pricing Analysis · Release Coordination

Tools & Systems: SQL / SQL Server · Jira · Kanban · ERP · HRIS · CRM · BPMS · Notion · N8N · GitHub

Languages: English C1

WORK EXPERIENCE

Pak Modiran Azad Industrial Group (PMA)

06/2024 - Present

Senior Product Specialist | Tehran

- Shape PMA360's vision and phased roadmap for seven subsidiaries, translating stakeholder needs into product requirements, user stories, workflows and release priorities.
- Coordinate HR, IT, Finance, technical teams and vendors; clarify requirements, document decisions and follow up on delivery issues through testing and staged rollout.
- Define UAT scenarios and support ERP and HR workflow implementation for up to 1,200 users, including training and user enablement.
- Design and validate SQL views and operational reports for recruitment, attendance and organizational data to support business decisions.

Rohan Solutions

09/2023 - 12/2025

Junior Product Specialist | Remote

- Conducted competitor and pricing analysis to inform product positioning and planning.
- Translated requirements into structured tasks and tracked delivery through Kanban, coordinating stakeholders to identify blockers and follow up on outstanding actions.

DARIA

10/2022 - 09/2023

CX Specialist | Tehran

- Analyzed customer feedback and service interactions to identify recurring pain points and unmet needs; translated findings into actionable product and service recommendations.
- Partnered with internal teams to improve customer-facing processes, supported by competitive research.

DARIA

01/2022 - 10/2022

Research and Future Study Specialist | Tehran

- Researched markets, competitors and technology trends; synthesized qualitative and quantitative findings into reports highlighting business opportunities and risks.

SELECTED PROJECT

PMA360 | Enterprise Digital Workplace

Initial release: centralized access to internal systems, announcements, user guides and employee contacts. Roadmap: personalized workspaces, employee onboarding, consolidated calendars and tasks, and deeper system integrations.

EDUCATION & PROFESSIONAL DEVELOPMENT

B.Sc. Industrial Engineering | Qom University of Technology | 2017 - 2021

Digital Product Manager Course | Bozhan School | 03/2025 - Present
